Certificate of Investigation Disclaimer of Liability

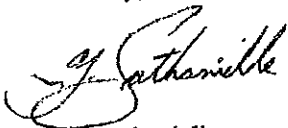

I remove buried furnace-fuel storage tanks as a living; as such it is in my best interest to find a tank when I am called for "detection" services. While I strive to be diligent throughout my investigations, on rare occasion I have missed a buried tank. In the past I have missed tanks that have been under addition foundations and one tank that had a natural gas meter installed directly over it.

I have no insurance to cover the event of an undetected tank through the course of my investigation. As such, I must stress that the SNR Certificate of Investigation is NOT a guarantee of no buried furnace-fuel storage tank existing at a given property.

Also, please note, that while a detection service may determine that a buried furnace-fuel storage tank may no longer exist on a property, had there been one at any time, the SNR investigation can NOT determine the matter of whether contaminated soil may be present.

I appreciate the haunting concern of having a potential liability of significant soil contamination and regret that I am unable to provide my customers with a guarantee regarding these matters.

Yours truly,

Grandt Sathanielle
